

How to make an egg box photo frame!

You will need:

Scissors
Glue

Cardboard
Paint and brushes

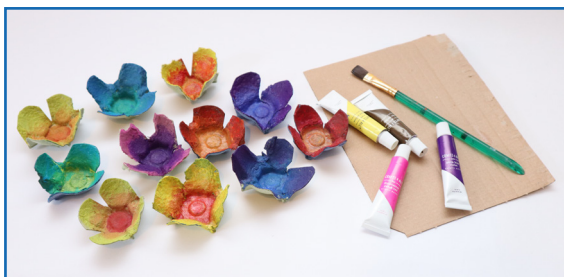

- 1** Use some scissors to cut the separate sections of the egg box apart.

- 2** Cut the sections to form a flower shape with 4 petals. You can tear the edges to give them texture.

- 3** Paint the flowers whatever colour you like. You can do lots of flowers or just a few. Tip - Paint the inside of your flowers a different colour to the petals to make them eye catching.

- 4 To make the frame, draw out a rectangle on some cardboard with another rectangle inside.

- 5 Carefully cut out the middle section to make a frame. Paint in a colour of your choice.

Always ask a grown up to help when using scissors

- 6 You can also make other decorations from cardboard such as a plaque.
